

Past CAS Problems by Paper

Exam 6U

Several topics on this exam have been covered by various papers over the years (ex. flood, taxes, loss reserve discounting, etc.). In addition, many papers still on the syllabus have been updated over time as the U.S. regulatory landscape changes. As a result, we have modified some past exam problems to reflect current regulations (ex. RBC formula now includes catastrophe and operational risk charges, taxation changed drastically with the 2017 tax law, etc.). We also want to note that the Exam 6U Online Course and Exam 6U Study Guide include an Excel Workbook with a List of Past CAS Problems by Paper back to Fall 2013.

Prob	Spring 2016	Fall 2016	Spring 2017	Fall 2017	Spring 2018	Fall 2018	Spring 2019	Fall 2019
