

# CAS Exam 7 Reading List

Rising Fellow

## Overview

This is a suggested reading order for the Exam 7 papers. I made a few switches from the syllabus to ensure that the order of the concepts is appropriate and to place the more approachable papers of a section earlier. In a few cases I placed the calculation-heavy papers earlier because I find it's better to study the essay-question papers later to avoid forgetting all the details by the time of the exam.

## Difficulty Level

The difficulty level is based on how difficult the paper is to read as well as how difficult the concepts are.

## Problem Type Indicator

This is a rough measure of whether calculation or essay questions are more likely to appear on the exam for a given paper. I based this on the exam problems since 2011 as well as the syllabus learning objectives. Don't take this too literally, but it should give you an idea of where to focus as you read.

Section	Paper	Syllabus Weight	Pages	Difficulty	Problem Type: Calc – Essay
A.1	Brosius	4%	19	●●●○○	■□□□□
	Mack (2000)	4%	5	●○○○○	■□□□□
	Hürlimann	4%	18	●●●○○	■□□□□
A.2-3	Clark	6%	50	●●●●○	■□□□□
	Mack (1994)	6%	82	●●●●●	□■□□□
	Venter Factors	6%	41	●●●●○	□■□□□
A.4	Siewert	3%	28	●●●●○	■□□□□
	Sahasrabuddhe*	3%	23	●●●●●	□■□□□
A.5-10	Shapland	5%	66	●●●●○	□□■□□
	Verrall*	4%	18	●●●●●	□□■□□
	Meyers	5%	54	●●●●○	□■□□□
	Taylor*	4%	34	●●●●○	□□■□□
	Marshall	5%	42	●●○○○	□□□■□
A.15	Teng and Perkins*	4%	78	●●●●○	□■□□□
A.11-14	Friedland	7%	64	●●●○○	□□■□□
B.1-3	Goldfarb	10%	49	●●●○○	■□□□□
C.1	Brehm Ch. 1	4%	20	●○○○○	□□□□■
C.2	Brehm 2.1,2.3-2.4	2%	21	●○○○○	□□□□■
C.2	Brehm 2.5	2%	25	●●●○○	□□□■□
C.3-4	Brehm 2.2	3%	12	●●●●○	□□■□□
C.5-6	Brehm 3.1-3.2	2%	14	●●○○○	□□□□■
C.5-6	Brehm 3.3	2%	13	●●●●●	□□□■□
C.7	Brehm 4.1-4.2	3%	29	●○○○○	□□□□■
C.8	Brehm 5.4	2%	15	●●○○○	□□□□■

**\*Notes:** Make sure to get the errata for Sahasrabuddhe, Verrall and Taylor. Teng and Perkins includes a discussion paper by Feldblum. Shapland links to supplementary Excel modeling workbooks.
